

A RARE NOTCHED OVATE

by
Chris Williams
Hamilton, OH 45013

Notched Ovate bannerstones are among the rarest of all prehistoric artifacts. This example was originally collected by William Sharkey, Preble County, Ohio, in the early 1920s. It was first in the Hubert Wachtel collection in Dayton and passed through several other collections.

Bannerstone originally
collected in Preble
County, Ohio.*

OBITUARY

William T. Platt

*Long-time member Bill Platt of Southington, Ohio, passed away Sunday, August 8th, 2010.
He was 84 years old.*

*Bill was a life-long member of the Archaeological Society of Ohio and displayed his collection
and artifacts many times at state, local, and chapter meetings. He last displayed part of his
collection at our Hopewell Symposium.*

Our sympathies to his wife Betty and family and many friends.
